

This PowerPoint includes data visualizations from the NNCC environmental scan, prepared by Katie Jobson with PHMC's Research & Evaluation Group. Data comes from the National Sample Survey of Registered Nurses (NSSRN). These surveys were conducted in 2018 and 2022 and include data on RNs, APRNs, and NPs. Data was accessed on November 26th, 2024 from <https://data.hrsa.gov/topics/health-workforce/nursing-workforce-dashboards>. The data was last updated in 2022.

Visualizations include several options for displaying each set of data, including by number or percent in most cases .

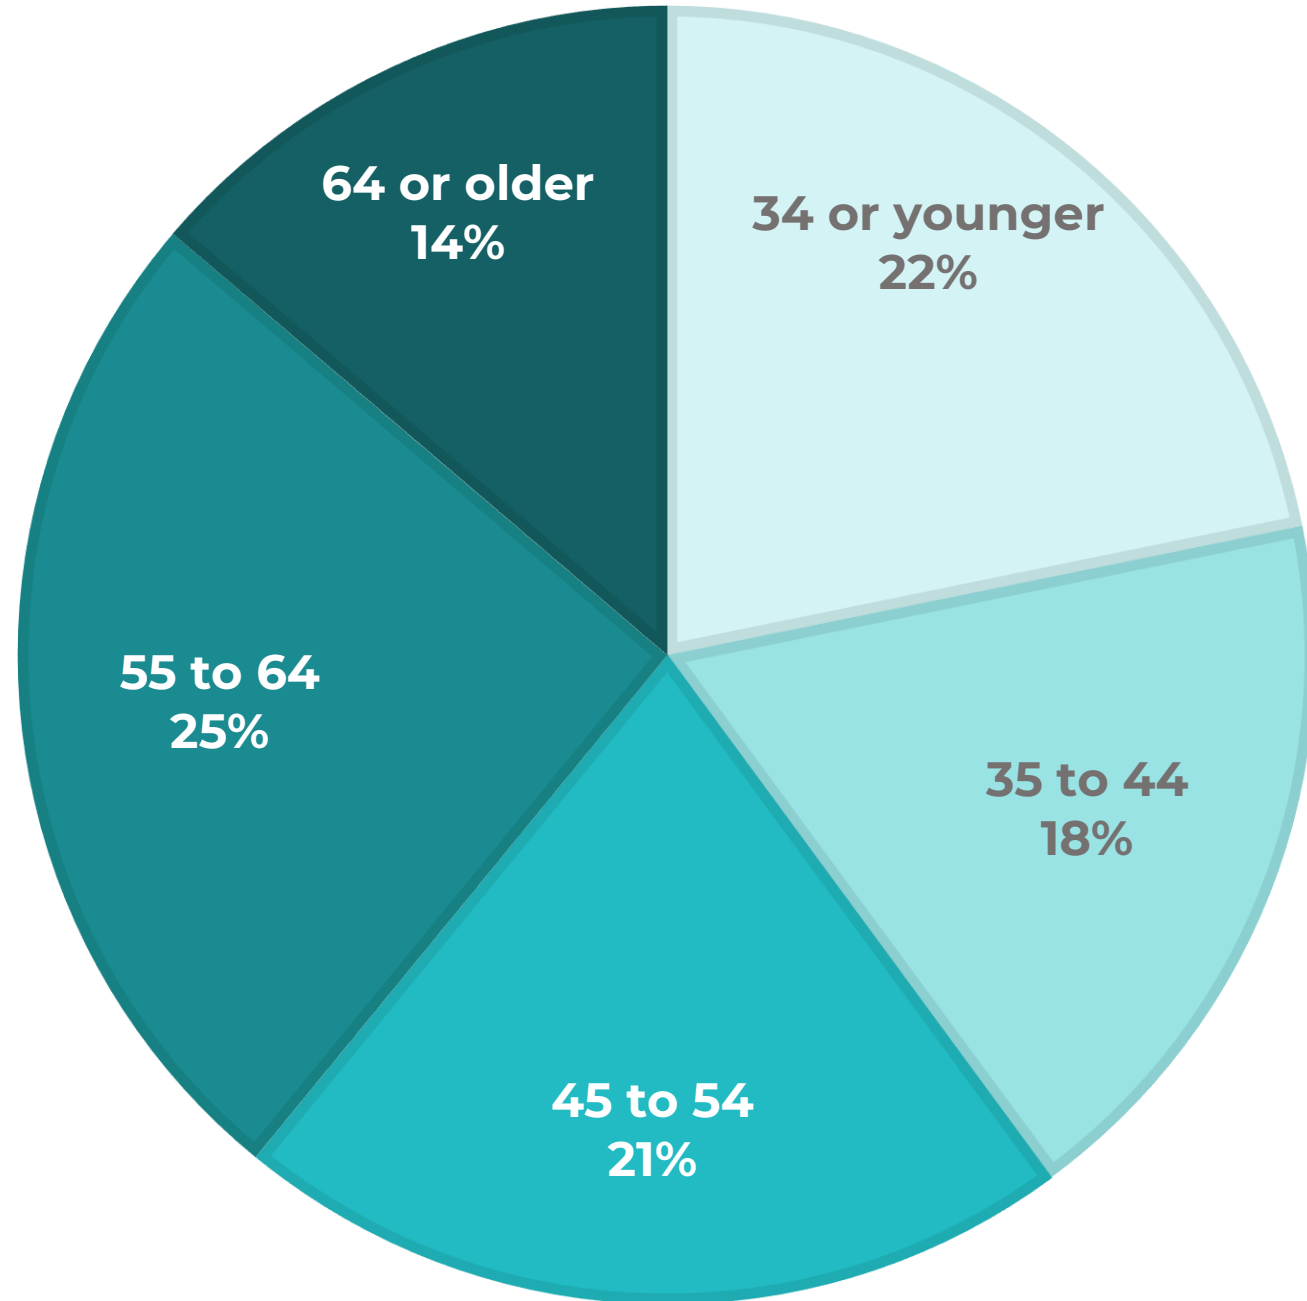

Outline of Visualizations:

1. Age of overall nurses by year
2. Ethnicity of overall nurses by year
3. Nursing licensure by year
4. Nursing licensure by gender and year
5. Nursing licensure by ethnicity and year
6. Nursing licensure by age and year

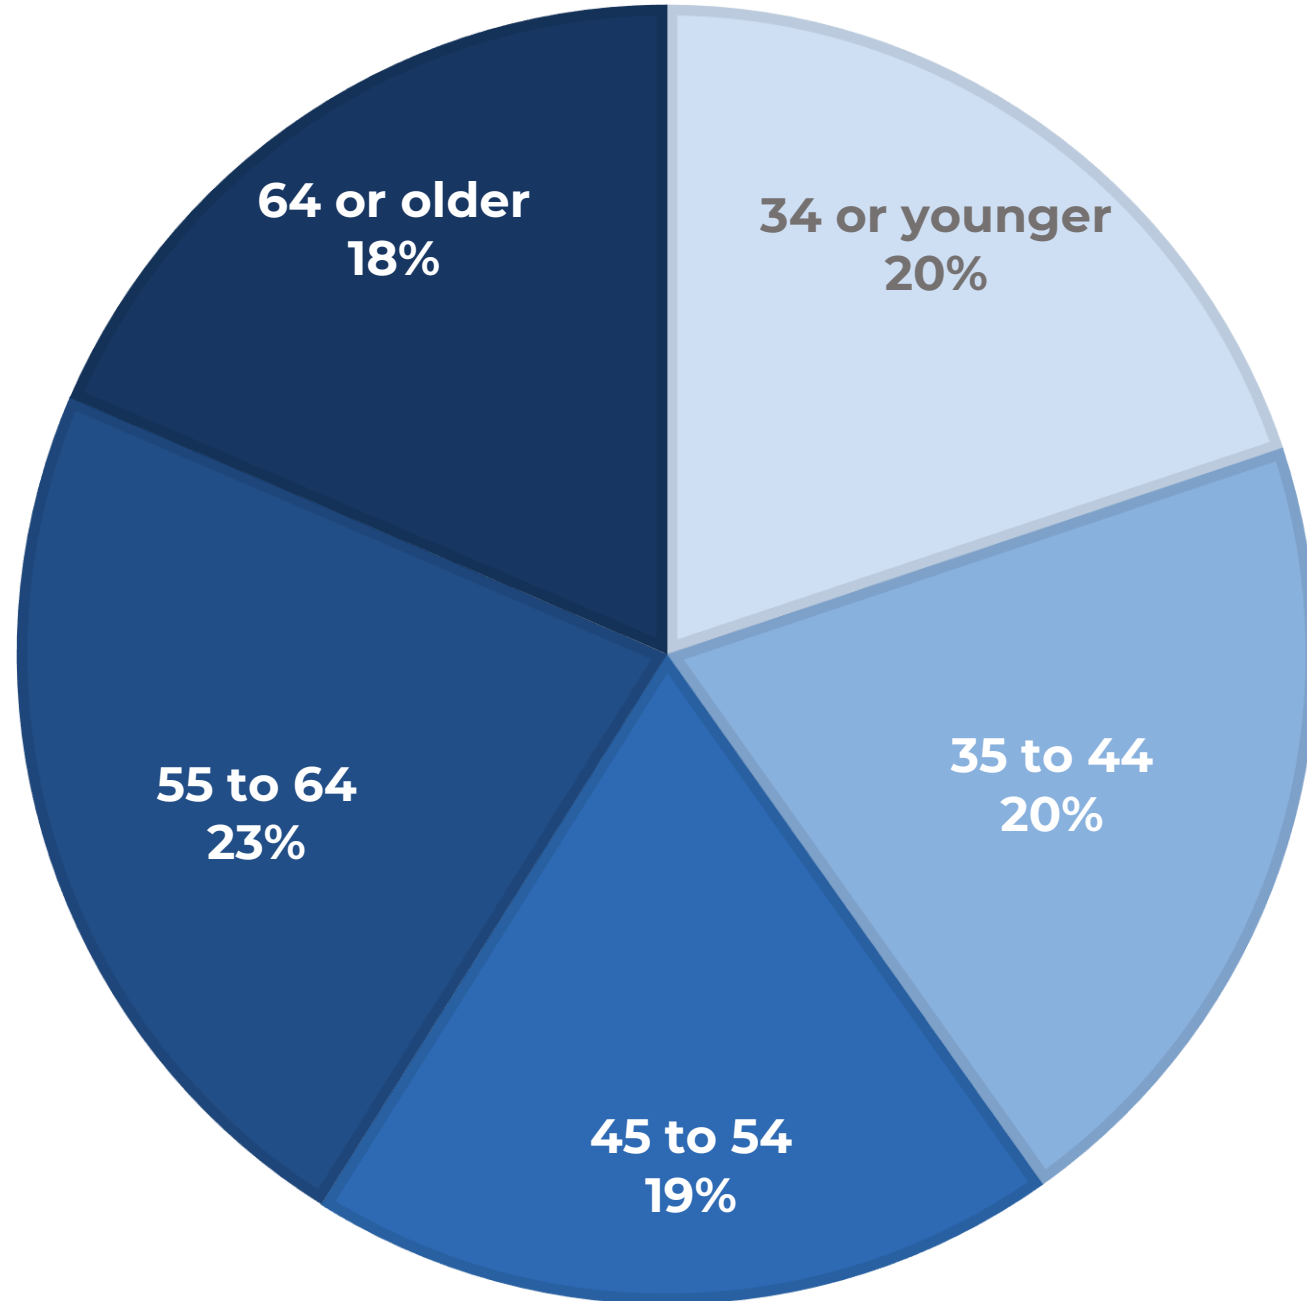

Visualizations can be edited directly in powerpoint, as well as in the excel sheet.
